

# H1N1 FLU VIRUS CLINICS

FOR HIGH-PRIORITY GROUPS SAT, NOV 7

Because some people are at higher risk for health complications from H1N1, the Government of Ontario is offering the H1N1 flu shot to these groups first:

- People *under 65* with chronic medical conditions
- Children aged 6 months to 5 years
- Health care workers
- Pregnant women
- Household contacts or caregivers of those at high risk who cannot be immunized, such as children under 6 months or those who are immuno-compromised

For information on upcoming clinics check your local news or visit our website at:

[www.oxfordcounty.ca/h1n1](http://www.oxfordcounty.ca/h1n1)
