## NOTICE OF PESTICIDE USE

Between **July 2 and September 30, 2010** the Oxford County Public Health and Emergency Services may be conducting a larviciding program when a risk area has been identified through mosquito surveillance under the authority of the Local Acting Medical Officer of Health to control larval mosquitoes in order to prevent their development into vectors of West Nile virus. The pellet formulation of the larvicide methoprene, *Altosid Pellets PCP# 21809* may be placed into catch basins of storm drains in the **City of Woodstock, Town of Ingersoll, Town of Tillsonburg, Village of Norwich, and the Village of Tavistock.** *VectoLex WSP, PCP # 28009* will be placed into Environmentally Sensitive catch basins. The larvicide *VectoLex CG, PCP # 28008* may be placed into standing water if surveillance indicates that treatments are warranted.

All larvicide will be applied by Ministry of Environment licensed applicators or trained technicians. For details on the exact locations and dates of treatment please call Oxford County Public Health and Emergency Services at 539-9800 extension 3489, toll free 1-800-755-0394 or visit the web site at [www.county.oxford.on.ca/publichealth](http://www.county.oxford.on.ca/publichealth)
