

Users of the **SWEABURG**  
Municipal Water System

**NOTICE OF WATER MAIN FLUSHING**

The water system will be flushed on **Tuesday, October 19, 2021**, during the day, between **8:00 a.m. and 5:00 p.m.**

When water mains are flushed customers may experience discoloured water or sediment in the areas being flushed.

If you avoid water use during the flushing, it will help prevent dirty water being drawn into household lines. **The iron in the water is an aesthetic problem and is not a health concern.**

If you experience discoloured water, an outside tap or a laundry faucet not connected to a water softener or filter should be turned on after the work is completed, in order to flush the household lines. Please allow sufficient time for the water to clear.

If you continue to have problems with the water please notify Oxford County Public Works at **1-866-537-7778**. We apologize for any inconvenience caused by the flushing program.

September 2021

**INGERSOLL**  
Municipal Water System

**NOTICE OF WATERMAIN FLUSHING**

Oxford County will be flushing water mains in the Ingersoll water system from **Monday, September 27, 2021, through to Friday, October 8, 2021**. We will be flushing between the hours of 8:00 a.m. to 11:30 p.m. to remove discoloured water or sediment (caused by iron settling out), which has accumulated in the mains since the last flushing in **April/May 2021**.

Flushing will begin south-west of King St, moving east at **8:00 a.m. on Monday, September 27, 2021**. Once the south portion of the town has been completed we will begin flushing on the north side of King St, moving from east to west beginning **Monday, October 4, 2021**. The flushing is expected to be completed by **Friday, October 8, 2021 at 11:30 p.m.**

When water mains are flushed customers may experience discoloured water or sediment in the areas being flushed. It is virtually impossible to determine exactly what areas will be affected, if any.

If you avoid water use during the flushing, it will help prevent dirty water being drawn into the household lines. **The iron in the water is an aesthetic problem and is not a health concern.**

If you experience discoloured water, an outside tap or a laundry faucet not connected to a water softener or filter should be turned on after the work is completed, in order to flush the household lines. Please allow sufficient time for the water to clear.

If you continue to have problems with the water please notify Erie Thames Services at 519-485-1820/1-877-850-3128 for appropriate action to be taken by Oxford County Public Works. We regret any inconvenience caused by the flushing program.
